

Arkana neurocosmetics are based on the innovative approach to neurotransmitters as the highest level of cosmetology. With more than 200 products based on over 70 original cosmetic formulas, there is a solution for every skin type. A perfect composition of innovative and active substances makes them biocompatible with the needs of the most demanding skin types. Made in Europe and beloved by professionals in Europe, Middle East, South Korea and Hong Kong. Arkana neurocosmetics do not contain any artificial additives or improving agents such as substances of animal origin, petroleum derivatives, irritating detergents and parabens. We source our active ingredients from the most prestigious laboratories world wide.
